PRACTICAL RESOURCE / UX DESIGN COACH

The design critique checklist

Purpose

[ ] Name the person, goal, and context.

[ ] Define successful completion.

[ ] Confirm the evidence behind the problem.

Interaction

[ ] Identify the next action on each step.

[ ] Give clear feedback for important actions.

[ ] Remove unnecessary effort.

[ ] Check empty, loading, error, success, and long-content states.

[ ] Make recovery understandable and preserve useful work.

Accessibility review

[ ] Check keyboard operation and visible focus.

[ ] Review reading order and programmatic labels.

[ ] Check contrast and avoid color-only meaning.

[ ] Enlarge text and check responsive layouts.

[ ] Evaluate with relevant assistive technologies and people.

These prompts are not a complete accessibility audit.

Evidence and action

Issue | Evidence | Impact | Confidence | Next action | Owner

What needs to be tested with people?

What would change our decision?
